The Bidder may specify in its bid the amount of concession fee per vehicle that will be equal or higher than EUR 4,800, not counting the replacement vehicles.

The elements of the criteria based on which the Contracting Authority will award the contract in the case of two or more tenders with identical amounts of concession fee will be:

In the event that two or more bids within one lot have identical concession fees, the contract will be awarded to the bidder whose selected vehicle fleet (deployed busses) have less average age; the average age of the vehicle fleet will be calculated based on the age of each individual vehicle expressed in the number of years and months.

Where two or more bids have the same amount of concession fee and the same average age of their vehicle fleet, the Expert Team will award the contract to the bidder by random drawing. The Contracting Authority will notify all the Bidders about the date of random drawing. The random drawing will be performed in public, in the presence of the Bidders, by writing down the names of the Bidders having equal concession fees and average age of their vehicle fleet on separate papers of the same size and colour. The papers will be put into a transparent box out of which all the papers will be drawn, while the Bidder having its name written on such paper that has been drawn first, will be awarded the Concession contract. The procedure of random drawing will be recorded in the appropriate Report.

The Contracting Authority will evaluate only those bids that comply with the requirements indicated by the public call for tender and the tender documentation – the qualified and acceptable bids.

A bid that the Contracting Authority has determined to be unacceptable will not be evaluated, while the Bidder will not be able to supplement it subsequently nor alter it in order to make it acceptable.
